♡

I really liked this project. I would want to participate in similar ones.

I really liked being in this project and i think everyone should get a chance to be in one at least once.

Amazing expirience that I would reccomend everyone. Best thing about it is that you explore culture and horticulture of your country and same from other country that is in the project

I can say only that I enjoyed being in the project and that it was fun

It was a very fun experience, would reccomend to those who want to enjoy the wonders of nature while being surrounded with their friends and doing fun activities!

Hope to cooperate next year too!

I would like to participate again

I loved every part of this project!

outdoor lessons are fun

Great activities!

I am very happy that participated in this project. I learned a lot of other things like determining of plants, making movies, making different decorations. We have a professor who supports all our ideas and opinions. I would like to participate in this kind of project again. Thank you for joining us in this project and I hope that there will be one next year as well.

I wants moręlessons Luke this on the future

I think the outdoor lessons are helping to get better contact in class.

Thank you

it was awesome

it was awesome

:)

More such lessons

i like outdoor lessons because they give me more motivated and are more interesting

I like this project and School need more action like this

Outdoor learning gives lots of fun

👍

Outdoor lessons are Creativa and more interesting

Its perfect project for children
